Administrator’s Update – Administrator Zawacki updated council on the sewer leak from December 16th - the 90 degree Ell fitting just outside the new Main St. lift station failed and spilled approximately 3000 gal of sewage into the ditch next to the Main St station. The ditch runs directly into Heathwood Lake. The flow was stopped by placing a dam across the ditch and set up a recirculation pump to run the sewage back into the wet well. The leak was reported to DHEC and they were happy with our response to the spill. All residents on the lake were informed of the leak. This was the 7th failure of the force main since the new lift station went into operation. The problem is the existing force main is a four inch thin wall sewer pipe which cannot withstand the pressures of the new pumps. Administrator Zawacki requested that Council give him the authority to move forward and contact BP Barber with this engineering (not to exceed $9,800) and cost estimate. Since this expenditure is under $10,000, the Administrator has full authority to move forward.

-Administrator Zawacki stated that he and Chief Todd Gantt attended a presentation on the Statewide Court Case Management System. This program was initiated by the state nine years ago and today 81% of the State Counties are on the system. Abbeville, Bamberg, Barnwell, Charleston and Williamsburg are the next in line to get on the system. Due to the fact the county Magistrates are also Municipal Judges the system is being offered to the Cities; the total cost to the county for this system will be $36,000 per year. The county would expect that the Cities would pick up a share of this cost. After discussion, Mayor Pro Tem Williams made a motion to allow Administrator Zawacki to enter into negotiations with the County. The motion was seconded by Councilman Walling and unanimously approved.

-There was another sewer leak on Dec. 28th at the DNR offices behind the Hatchery. Approximately 1200 gals of sewage spilled into Turkey Creek. An existing manhole had failed and crumpled in on itself. We contacted DHEC, gave them our notification and sent them our sample results, and they are fine with what we have done. This manhole has to be replaced because it will not last another six months. Administrator Zawacki is getting estimates on what it will take to remove that manhole and put in a concrete pre-fabricated manhole in its’ place.

-The Police Dept. received a donation from Kronotex for 2000 sq. ft. of flooring for the new police station. Mayor Lemon went on record as saying “Thank You” to Kronotex and also requested to send them a nice thank you letter.

-As of Jan. 1st Sport Holland is our new City of Barnwell Judge.

-On January 28th a Census educational bus will arrive in Barnwell and be parked in Reid’s Plaza from 4 to 6 pm to explain the importance of the complete census count. We have also erected two signs indicating the City’s support for the Census; one at the fuller park parking lot and the other at five points. The Census Bureau has requested that they be allowed to place a Census employee in City Hall to answer questions and fill out forms during the Census counting period. Mayor Lemon stated that he read in the paper that during the last ten years, due to under reporting, the State of SC has lost 58 million dollars in federal funds. Administrator Zawacki stated that in the year 2000 SC was 49th in Census letter returns.

-On December 17th Administrator Zawacki, Chief Dicks, and Jimmy Faircloth met with Milliken representatives. The topic of the meeting was a request from Milliken to tie into the city’s Potable water line for their fire protection. Milliken also asked for a quote from the city to provide fire protection for their property. Due to the Milliken property sitting in an area carved out of the city limits, City Council would have to approve their request and they would have to enter into a contract with the City. Quotes were sent to them on January 4, 2010.

Mr. Wiggins asked that Administrator Zawacki bring it to Council for them to look at. Milliken is still planning to demolish the buildings and plant the acreage in pines and have it rezoned agricultural. There was some discussion about the easement access that the city would have and the amount of acreage that would be taxed. There is still a question of whether it is worth the city re-annexing the property.

Committee Reports

Water and Sewer- Councilmen Black and Atkinson. No Report

Sanitation and Streets- Councilmen Black and Atkinson. No Report

Recreation and Parks- Councilmen Pattillo and Walling. Councilman Walling commented on the $5,000 request from the Barnwell Baseball Association. The $5,000 is not available and the Parks & Recreation Committee does not recommend giving the Association any money. It would also be suggested that if the Barnwell Baseball Association cannot run the program without a deficit budget, that it may be time for the City Recreation Department to take over the Baseball/Softball Program. Director Randell stated that the $5,000 given back to the City by the Baseball Association plus an addition $5,000 from the city was used to recondition the fields this year. This is in addition to the almost $20,000 that the City spent on maintaining the fields for the baseball/softball season and the repairs needed to the park due to damage caused during the season. Administrator Zawacki noted that the programs that the Recreation Department was running have broken even and not lost any money. The only other issue that Director Randell noted was that the concession stand had lost money this year. The Department has already asked for parent volunteers to work the concession stand during the football season. That means that we will not be able to cite out of town property owners on ordinance violations. I am obtaining a copy of the Supreme Court decision for City Attorney Boulware to review and provide us with an opinion on our current ordinance and see if an update is needed.

- We have received notice that the City will get a $15,000 grant from the Village Renaissance Grant program to develop a revitalization plan for the Bantam Forks neighborhood. Lynn Cox will be the City contact person.

- Currently the Water and Sewer Department is significantly shorthanded. We have two individuals out on workers compensation and one WWTP operator has resigned. We are currently looking for two part time workers for W&S and a new operator for the WWTP.

- The Police Department also is understaffed with one resignation, one officer out on leave and one officer going to the Academy. We are interviewing for the open position and are covering the other slots with overtime.

- We received a Downtown Market Opportunities Report from the Department of Commerce. This report was generated as part of a proposed Community Enterprise Program. Only three SC cities were asked to participate-Bishopville, Union and Barnwell. Lynn Cox led our team of Marty Martin, Lynn, and Administrator Zawacki. We had two great projects set up and Lynn pushed Commerce to the max to get the program going. However, she was not able to make
